B.

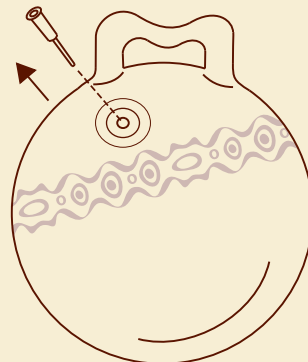

Hop n' Glow™

3 YEARS +

Pump this baby up and get to hoppin' in no time!

A little air goes a long way.

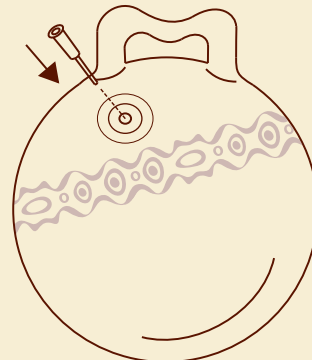

STEP 1

Remove the pin before beginning to inflate.

STEP 2

Insert the pump and start pumping until desired fullness (don't over inflate). This bouncy ball can inflate from 15" to 17" diameter (47" to 53" circumference). Please inflate to a suitable size for your child.

STEP 3

Push pin back inside once ball is plump. Ready, set, hop away!

- Always hop under the supervision of a grown-up.
- A little wipe is all it needs to stay clean.
- To prevent bumps and bruises, start things slow with small hops.
- This toy can handle up to 110 pounds.

Designed by Maison Battat Inc. Consumer Information Line: 1-866-665-5524

ATTENTION: For optimal bounce, have an adult watch you hop, and be sure to steer clear of stairs and roads. Hop on smooth surfaces only, put away your not-so-bouncy toys first, and do not over pressure the Hop n' Glow when inflating or you just might burst your bubble!

Avoid contact with furniture or painted surfaces over a long period of time to prevent discoloration.
