

B.

Come and play   among the stars ...

Light Me to the Moon™

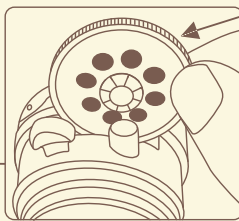

4 YEARS + UP

One slide away from a fantastic space odyssey...

Reel storage

1 Slide the reel inside the designated slot. Push all the way down.

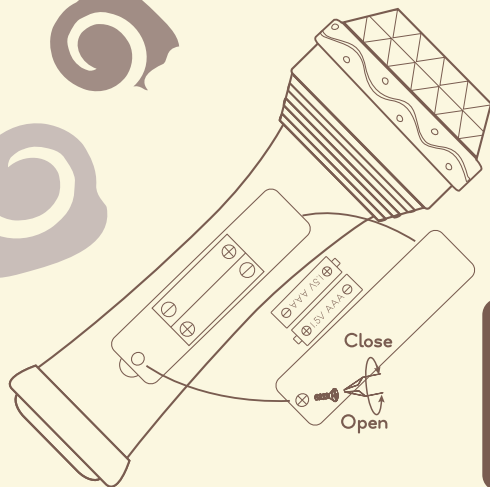

Make sure the raised dial is facing toward you and the smooth surface is facing toward the front of the flashlight.

4 Press here to hop from one planet to the other. Our very own solar system!

5 Press here to release the reel, and slide a different one. Look out for the friendly aliens!

3 Adjust the focus ring until the image is clear. Enjoy the view!

2 Slide switch to ON.

REPLACING BATTERIES

2 AAA (1.5V) BATTERIES INCLUDED

- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- Dead batteries? Check out earth911.com to quickly find the recycling center nearest you.

Because everyone needs a little break from time to time, this flashlight will turn off automatically after 10 minutes. If you wish to continue exploring the galaxy, simply press on the power switch.
